About Kevin Guest House

Founded in 1972 by Cyril and Claudia Garvey, Kevin Guest House is a memorial to their son Kevin, who died of leukemia at the age of 13. The Garveys' had traveled from Sharon, PA., so Kevin could receive treatment at Roswell Park Cancer Institute. While the Garveys had the means to stay in a local hotel, they saw others who were not as fortunate. They recognized the need for comfortable, affordable lodging close to Buffalo's medical facilities for these displaced families.

Located at 782 Ellicott Street in the heart of the Buffalo Niagara Medical Campus, Kevin Guest House is proud to be the nation's first hospital hospitality house. Kevin Guest House welcomes more than 1,200 guests from all over the world each year.
